WILD LATAM (Latin America): Growing, growing...

WILD LATAM hosted the first meeting of 2016 on February 25th in a great event sponsored by FIS Global (formerly Sungard Mexico). Over 25 professionals gathered together with a vast range experience in derivatives. The group included the CEO of FIS who is proudly one of the few Mexican female CEOs. WILD Latam welcomed many new women to the organization and participation has been fabulous!

Several initiatives came out of this meeting- including a *Whatsapp* group, allowing group members to stay in touch. The group is now up and running, allowing members to communicate regarding work opportunities, and help one other benefit from cross topic expertise. The group is planning a tour to Chicago to participate on the 32nd Annual FIA Futures & Options Expo in Chicago.

WILD Chicago: Already in the swing of spring

Speed Networking

On March 3rd, WILD Chicago hosted its “Networking with a Purpose” evening of speed networking. The event, which BP and Eurex generously sponsored, was a tremendous success. Over 50 individuals attended, leading to roughly 530 new connections in just one hour! SpeedNetworking.com, the company that organized the formal networking session, queried participants about their backgrounds and career interests and set each a custom list of matches. Meet-ups with matches were quick – only a few short minutes to talk! – but just enough time to have a substantial conversation. After an hour of formal networking, attendees chatted over food and drink courtesy of BP, including specially crafted mango margaritas. All in all, the night was full of fast-paced but meaningful connections. Given the enthusiastic chatter that filled the room during the formal networking and long after, participants seemed to have a great time.
